TAPING

The CSM 211 robot wrapper is a flexible mobile stretch wrapper. The wrapper can be moved to any desired location by means of a handle with controls. Due to its flexible nature, the wrapper can handle any package in any size. The film is replaced very quickly in the controlled film trolley. Operation is easy with touch keys. The machine has a modular structure, which means that the machine can be used for both light as intensive usage.

Most important features:

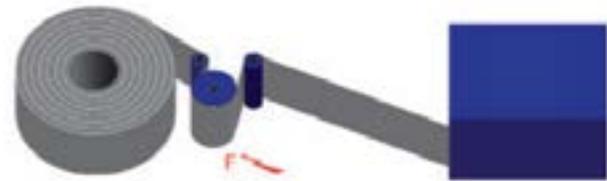

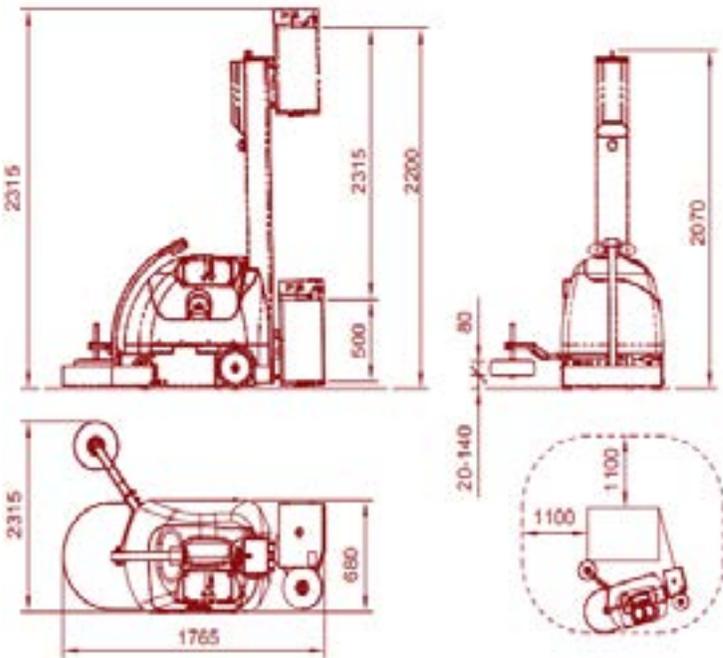

- 99 different wrapping programs
- Adjustable robot speed
- Adjustable film trolley speed
- Adjustable number of lower and upper windings
- Pallet height detection
- Wrapping up and down

Options:

- Extended mast
- Automatic cutting unit
- Other options on request
