

Strapping hand tool KO 76 & KO 16  
For light and medium duty applications

## Plastic strapping hand tool

- ✓ For smaller numbers of strapping cycles per day
- ✓ For several types of plastic strapping (polypropylene, polyester and woven polyester strapping)
- ✓ For light and medium duty applications

The KO 76 & KO 16 are the optimal choice where manual strapping is required in several locations. The KO 76 is a lightweight but robust device, suitable for plastic strap of 13 mm. The KO 16 is the logical choice for those more demanding applications, built to suit plastic strap of 16 mm. Both of these Tensioner/Sealer combination tools are for use with a metal seal with strap tension, seal closure and cut via manual lever.
